GOALS

- Support open science by building tools and teaching research methodology that promotes reproducible research.
- Build technical skills in a wide variety of fields in order to perform high-quality research at institutes with limited resources.
- Build explanatory models for sensorimotor learning that further our understanding of motor planning and cognition in biological systems.
- Obtain teaching, project management, and laboratory experience sufficient to one day become an excellent university professor.

EDUCATION

Oct 2014 - Dec 2018 — *PhD. Candidate* — Graduate School of Systemic Neurosciences, Luedwig-Maximillians Universitaet

Aug 2012 — *M.Sc. Neuroscience* — Graduate Training Centre of Neuroscience, Eberhard Karls Universitaet Tuebingen

May 2010 — *B.Sc. Psychology* — Wittenberg University

RESEARCH EXPERIENCE

Dec 2019 - March 2020 — *Ludwig-Maximillians Universitaet* — Dr. Thomas Wachtler

Designed a short course on "Research Data Management" as part of the NFDI initiative on computational infrastructure training for neuroscience.

Nov 2018 - July 2019 — *Max Planck Institute of Biochemistry* — Prof. Dr. Matthias Mann

Programmed high-throughput automated data collection and data analysis pipelines. I also designed and implemented a job-scheduling web application, implementing lean management methods to decrease data collection waiting times for 40 users and trained and mentored several biology and bioinformatics researchers in Python programming methods and open-source collaboration workflows, as well as gave introductory programming workshops for over 150 researchers.

May 2013 - Nov 2018 — *Ludwig-Maximillians Universitaet* — Prof. Dr. Anton Sirota

Programmed a 3D graphics engine in Python to build virtual reality system for freely moving rats, supervised students in programming, engineering, and cognitive science projects, organized weekly journal clubs, and ordered new equipment, trained rodents to perform behavioral tasks, and performed surgery on said rodents as part of brain research.

INDUSTRY EXPERIENCE

Freelance Data Analysis Programming Trainer .

I teach week-long programming workshops for research institutes, universities, and private companies.
